IPRO QIN-QIO Resource Library

The IPRO QIN-QIO maintains a Resource Library with the latest tools, educational resources and links to essential information on a variety of topics, like health equity, patient and family engagement, nursing home quality, readmissions, and more. The library is designed to save you the time and effort of creating your own resources or searching multiple sites for relevant material. To access the Resource Library, scan the QR code below.

<https://qi-library.ipro.org/>

Some Recent Resources Include:

- Diabetes Management Essential Communication Elements Guide for Transitions of Care
- Essential Communication Elements Guide for Transitions of Care
- COVID Therapeutics Action Plan
- Smoking Cessation: Resources to Increase Services and Reimbursement
- And much more...

The Resource Library allows you to search through recent resources or use the Resource Picker to narrow your search by a focus area.

To use the **Resource Picker**, click on the boxes next to each focus area and press "SUBMIT." You can also select multiple Focus Areas to make your search even more specific, or search by topic or resource name by typing in the "Free text search" box.

RESOURCE PICKER

Focus Area
