SNF QRP

- The SNF QRP creates SNF quality reporting requirements as mandated by the Improving Medicare Post-Acute Care Transformation Act of 2014 (IMPACT Act). By October 1, 2016, SNFs began collecting data for submission. **It continues to this day.**
- **Impact Act Goals:**
 - Shared Decision Making
 - Care Coordination
 - Enhanced Discharge Planning
 - Data Interoperability
 - Quality measurement
 - Payment Reform

Continued

- The [SNF QRP](#) makes quality of care information available so patients can make informed decisions about their health care options.
- It also encourages hospitals and providers to improve the quality of inpatient care they provide to patients by ensuring they're aware of, and reporting on, best practices for their facilities and type of care.

SNF QRP Measures

Data for the SNF QRP measures are collected and submitted through three methods:

- Minimum Data Set (MDS) 3.0
- Centers for Disease Control and Prevention (CDC) National Healthcare Safety Network (NHSN)
- Medicare Fee-For-Service Claims

SNF QRP Measures

MDS Measures:

Data collected using the MDS 3.0 and submitted to the Centers for Medicare & Medicaid Services (CMS) via the Internet Quality Improvement and Evaluation System (iQIES):

- **Application of Percent of Residents Experiencing One or More Falls with Major Injury (Long Stay)**
- **Drug Regimen Review Conducted with Follow-Up for Identified Issues**
- **Changes in Skin Integrity Post-Acute Care: Pressure Ulcer/Injury**
- **Application of IRF Functional Outcome Measure: Discharge Self-Care Score for Medical Rehabilitation Patients**
- **Application of IRF Functional Outcome Measure: Discharge Mobility Score for Medical Rehabilitation Patients**
- **Transfer of Health Information to the Provider-Post-Acute Care**
- **Transfer of Health Information to the Patient-Post-Acute Care**
- **Discharge Function Score**
- **COVID-19 Vaccine: Percent of Patients/Residents Who Are Up to Date**

CDC NHSN Measures:

Data for these measures are submitted via the Centers for Disease Control and Prevention's (CDC) National Healthcare Safety Network (NHSN):

- **COVID-19 Vaccination Coverage Among Healthcare Personnel**
- **Influenza Vaccination Coverage Among Healthcare Personnel**

Medicare FFS Claims Data Measures:

Data for these measures are collected from claims, and no additional data need to be submitted by the SNF:

- **Medicare Spending Per Beneficiary**
- **Discharge to Community**
- **Potentially Preventable 30-Day Post-Discharge Readmission Measure**
- **Healthcare-Associated Infections (HAI) Requiring Hospitalization**

NHSN QRP Measures

How is NHSN compliance determined?

- For NHSN data, facilities are required to report data for one week of each calendar month, with three months of data due by each submission deadline (for example, Q4 data encompasses October-December and is due May 15 of each year). Facilities that submit complete data for all twelve months will be found compliant with the NHSN measures. The list of required measures is available on the [SNF QRP Measures and Technical Information](#) webpage.

Notices – Went Out July 3

- Notices that went out on July 3 are in the iQIES folders
- Your facility needs to check there to see if the noncompliance is related to the MDS or NHSN reporting
- All data must be submitted no later than 11:59 p.m. on August 15, 2024

QRP Noncompliance - Have You Received Notification?

Good morning,

We are reaching out to remind you of the upcoming August 15, 2024, submission deadline for the Skilled Nursing Facility (SNF) Quality Reporting Program (QRP). SNF Minimum Data Set (MDS) assessment data, and Centers for Disease Control and Prevention (CDC) National Healthcare Safety Network (NHSN) COVID-19 Vaccination Coverage among Healthcare Personnel (HCP) data, for January 1 - March 31 (Q1) of calendar year (CY) 2024 are due with this submission deadline.

All data must be submitted no later than 11:59 p.m. on August 15, 2024.

SNFs must also meet an **assessment-based quality data submission** requirement compliance threshold of 90%, using data submitted through the MDS.

- As of July 15, 2024, for [REDACTED], your assessment compliance threshold is 88.89% for data submitted during Q1 of 2024.

Reminder – Threshold Changes from 2023!

- One of the most pivotal changes will be an increase to the SNF QRP data completion threshold from 80% to 90% within the Minimum Data Set (MDS). Facilities will need to be in line with the specified guidelines provided from the newly established QRP requirements. This will result in SNFs realizing a 10% increase in the requirement of 100% collection of data associated with the required quality measures and standardized patient assessments. Facilities will also go from 99 QRP items currently, to 230 MDS items come October 1, 2023.
- In order to ensure compliance, SNFs must use the MDS to gather data on a minimum of 90% of assessments that are submitted to CMS. With the SNF QRP being classified as a pay-for-reporting system, lack of compliance with the updated requirements will result in losses for facilities. The penalty assessed to the SNF will entail a 2% reduction in their annual payment for fiscal year 2026, resulting in decreased reimbursements.

* FY 2026 SNF QRP Annual Payment Update (APU) Determination Table is limited to the data elements that are used for determining SNF QRP compliance and are included in the APU submission threshold. There are additional data elements used to risk adjust the quality measures used in the SNF QRP. It should be noted that failure to submit all data elements used to calculate and risk adjust a quality measure can affect the quality measure calculations that are displayed on the Compare website.

- You can run a report from iQIES to show your numbers

*Disclaimer: The SNF Provider Threshold Report is available for the convenience of the provider. Extensions and exceptions approved according to CMS policy have not been applied in the score calculations. The score in this report is considered preliminary, and is not the final CMS calculation of SNF compliance with the requirements set out in 42CFR 413.360(b)(2).

Summary

- SNF QRP non-adherence is tied to financial penalties
- SNF QRP have measures that are related to your 5 STAR rating
- The SNF QRP NHSN measures also have potentially weekly CMP fines associated with non-compliance

Now What

- Ensure your MDS Submissions are timely and completed - threshold for completion is now 90% up from 80%
- Ensure you are completing your NHSN data submissions each week and your annual staff influenza data - many facilities struggle with this still!
- Focus on quality improvement

Final Considerations

Recognize that CMS is continuing to transform from a passive payer to an active value purchaser by implementing payment mechanisms that reward measured entities who achieve better quality or improve the quality of care they provide.

Focus on quality! And that also means understanding all the systems behind how you are measured.
